2. Applicability. This Policy is applicable to all 2d Infantry Division (2ID) Soldiers, all Soldiers subject to the 2ID General Court-Martial Convening Authority, and all 2ID civilian employees, invited contractors, technical representatives, and family members. This policy is punitive and violations of its provisions may result in punitive actions against service members, and adverse administrative actions against service members, civilian employees, invited contractors, technical representatives, and dependents.

3. Background. A disturbing trend of abusing substances not listed as controlled substances (Title 21, United States Code section 812), but that are capable of producing excitement, intoxication and/or stupor of the central nervous system, has emerged in Korea among 2ID personnel. Many of these substances are illegal in Korea and also fall within the purview of references a thru g. The use of these substances is detrimental to good order and discipline, mission readiness, and the overall effectiveness of this command and its Soldiers and civilians.
